

## SUPRA

TFR 400/500 (A) & (C)

NEW GENERATION  
MOVING IRON CORE TYPE AC ARC WELDERS  
SUITABLE FOR MOST DEMANDING INDIAN CONDITIONS

### SALIENT FEATURES

- Heavy Duty, Rugged Welding Transformer.
- Reliable, High Performance Yofdec.
- 400/500 Amps at 35% duty cycle.
- Choice of Copper or Aluminium Windings.
- Forced Air Cooled.
- Ideal for all type of Electrodes.

D & H Sécheron Industries Private Limited

NEW GENERATION  
MOVING IRON CORE TYPE AC ARC WELDERS  
SUITABLE FOR MOST DEMANDING INDIAN CONDITIONS

TECHNICAL SPECIFICATIONS			
Sr. No.	Details	SUPRA TFR 400	SUPRA TFR 500
1.	Supply Voltage	400 – 440 Volts	400 – 440 Volts
2.	Phase	2 Lines of 3 phase supply	2 Lines of 3 phase supply
3.	Frequency	50Hz.	50Hz.
4.	Rated Input Power	32 KVA	38 KVA
5.	Rated Output Current	400 Amps.	500 Amps.
6.	Open Circuit Voltage	76 Volts	76 Volts
7.	Duty Cycle	35 %	35 %
8.	Output Current Range	80 ~ 400 Amps.	100 ~ 500 Amps.
9.	Cooling	Forced Air	Forced Air
10.	Weight	110 Kgs.	135 Kgs.
11.	Dimension (L X W X H)	550 x 300 x 450 mm	550 x 300 x 450 mm

In view of continuous development, D & H Sécheron Industries Private Limited reserves the right to modify / change the design and or the specification without any prior notice.
